Research Interests

- Post-2023 Focus: In the post-ChatGPT era, my research focuses on **analyzing the limitations and exploring the zero-shot applications of LLMs / LMMs**, as the advanced capabilities of large pre-trained models have significantly reduced the traditional labeling burden.
- Pre-2023 Endeavors: My earlier research was dedicated to **creating trustworthy visual applications with low-cost sensors and minimal labeling burden** in real-world scenarios.
